

Please note...

Uniform: Children need to be wearing the correct uniform at all times. Jumpers and cardigans can be worn in class, fleeces are for outdoor wear only. We take pride in our school and are very proud of how smart the children look when wearing the correct uniform. Your support in this area would be appreciated.

PE lessons: PE lessons in year 6 will take place on a Monday and Wednesday. It is essential that children have their kits in school everyday. P.E. will take place outside and therefore the children will need an outdoor kit; school jumpers are not allowed to be worn. Please speak to your child's class teacher or check the school website if you are unsure about what your child should wear for PE.

Water bottle: Children should have a water bottle in school; this must contain water and not juice. Please ensure that the bottle is labelled clearly with your child's name.

Snack: As we encourage healthy eating throughout the school, the children may bring fruit and vegetables to eat during break time.

Homework: Homework will be given out every Friday and should be returned to school the following Wednesday. Homework set will be based on learning that has taken place in the classroom. It is important that homework is completed to the best of your child's ability and is handed in on time otherwise a consequence will be given. Home learning club will run on a Tuesday lunchtime for any children who are unable to complete the work at home.

Production: Towards the end of the first half term, we will be holding auditions for our Year 6 production and then we will start rehearsing for our performances. Any help you could offer your children with learning lines would be much appreciated.

Extreme Earth

Year 6
Summer Term

Welcome back, we hope that you had a fantastic Easter holiday. This term is a very important term for Year 6, with their SATS week starting the 14th May. It is therefore essential that your child is in school and on time every day. It would be extremely beneficial to your child if you could help them with revision.

Year 6 team:

Miss Raphael (Cherry Class Teacher)

Miss Poole (Maple Class Teacher)

Miss Thacker (Higher Level Teaching Assistant)

Miss Walters (Year 5/6 Phase Leader)

Mr Holder (Assistant Headteacher)

Mr Priest (Assistant Headteacher)

Please do not hesitate to contact us if you have any concerns; we will do our best to answer your queries. The happiness of your child is very important to us all.

Our topic:

The theme for our summer term is Extreme Earth. We will be looking at how and why different natural disasters take place. We do hope that you will encourage your child to research this topic at home, as this will support them in their lessons.

English: We will be continuing to write in range of genres based on Percy Jackson and the Lightning Thief. These genres include myths and non-chronological reports.

Maths: The children will continue to practise arithmetic and reasoning questions in preparation for SATs. After SATs we will focus on solving mathematical problems in real life contexts.

Science: Our topic this term is Evolution and Inheritance. We will be exploring change over time and how animals and plants have adapted to their environment.

Geography: In topic, we will be investigating Earth's more extreme weather accuracies such as earthquakes, volcanoes and tsunamis.

Art: We are concentrating on visual art this term and will be creating colourful tornadoes using different shading techniques. We will also be looking at Hokusai's 'Great Wave' picture and creating our own wave design.

French: This term, the children will learn new vocabulary relating to hobbies. They will then apply their learning to create an extended piece of writing.

RE: This term, the children will learn about creation stories of different religions, including Christianity, Judaism, Islam and Hinduism.

Computing: The children are developing their coding skills using a programme called Kodu. They will create their own game which requires manipulating codes.

PE: This term, we will be focussing on cricket and tennis. They will develop their racquet, striking and fielding skills and their understanding of match play.
